

Populus sp.

Hybrid Poplar

Deciduous broadleaf tree

HYBRID POPLAR

Very fast growing, up to 5' to 8' per year. Grows to a height of 40' to 50', usually planted for fast shade, or can be harvested for firewood in 5 to 7 years. Leaves are triangular in shape, 3" to 6" long and 4" to 5" wide, with teeth all around the margin, often silver-green in color, but this is quite variable. Does very well in full sun, prefers wet soils.
